

NEXT GENERATION STEEL TURNING PROMOTION

New coating and carbide substrate provide excellent wear and fracture resistance
 Longer tool life for a wide range of machining applications
 Introducing PMG Chipbreaker for medium-roughing

Product Information

Buy 20 Inserts Get 10 Inserts FREE	Insert	Part Number	Grade	Dimensions (in)				Price (Per pc)
				I.C.	Thickness	Hole Dia.	Corner R (RE)	
		CNMG 432PMG	CA115P	1/2	3/16	0.203	1/32	\$7.16
		CNMG 432PMG	CA125P					
		WNMG 432PMG	CA125P					\$7.57

*Inserts sold in 10 pc packs

Next Generation Steel Turning Grades

CA115P

Continuous to light interrupted machining
 Highly-efficient machining

CA125P

Continuous to heavy interrupted machining
 General purpose

Innovative Layering Technology

Ultra-uniform alumina layering

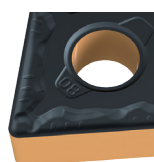

Proprietary crystal forming technology
 Achieving significant crystal growth uniformity and direction
 Reduces crater wear and extends tool life

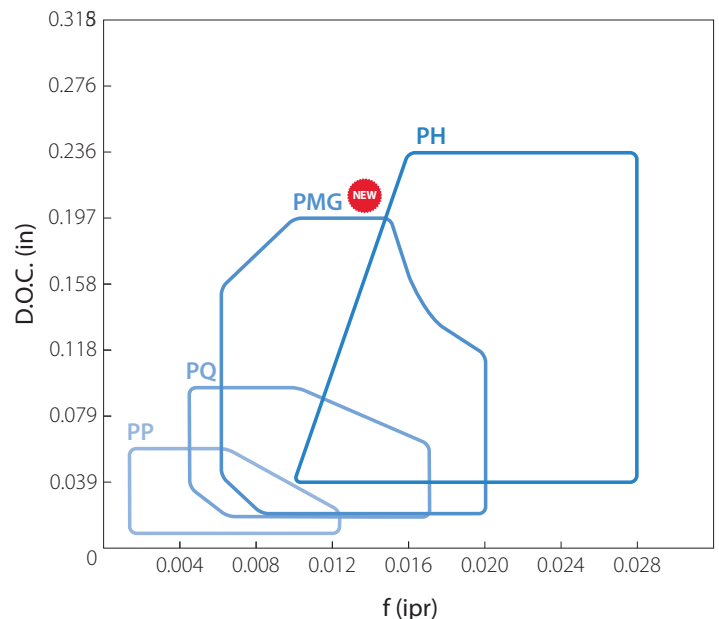

New Chipbreaker Design

PMG Chipbreaker for Medium-Roughing

Unique design covers a wide range of machining applications
 Maintains excellent chip control

Chipbreaker Application Range
